Dear FCC:

I am writing to complain about the proposed changes to the Universal Service Fund and requesting that the FCC investigate this matter further before changing the current policy. Your proposed \$1.00 per month charge for all wireless phones will directly impact my ability to retain my wireless service.

I do not think it is fair to charge EVERYBODY \$1.00 dollar regardless of how they use their wireless phone, especially for a low-volume user that relies on wireless service for safety and security, not interstate calls. The current policy is fair, based on interstate usage, and should be left alone. Please do not penalize us. Keep this fair.

I purchase MINUTES rather than paying for a monthly service and I keep my wireless phone in my vehicle to use for emergencies. Pay phones are becoming more and more difficult to locate and when you are stranded on the side of the road a wireless phone is a necessity. Please do not make it more expensive to have this sort of peace-of-mind than it already is.

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

Very truly yours,
